JUNE IS POPULAR WITH LOVE LORN COUPLES STILL

As Record at McCracken County Court House Attests and Judge Can Tell.

Recruiting Increases Since Better Pay is Promised.

POLICE AND FIRE REPORTS

June is still popular as a month for marriages, as shown by the record in the county clerk's office at the court house, where 34 licenses were issued in the month ending today. Of this number County Judge Lightfoot performed nearly half of the ceremonies in his office. There were runaway couples, elopements and conventional marriages, ranging from the simplicity of the court house and hotel parlor ceremonies, to the elaborate church weddings.

For the first six months of 1908 a total of 176 marriage licenses have been issued here. An astonishingly large number of the licenses are issued to Illinois couples, more, perhaps than go from Kentucky to Mississippi.

Divorce suits were not filed in large numbers in June, as the records in the circuit clerk's office show only five couples are seeking a separation.

Enlistments.
Enlistments at the local recruiting station for the last six months totaled 72, and Sergeant Blake attributes the good showing to the increased pay and to the fact that depressed industrial conditions made the army an attractive prospect to many men. There were 251 applicants.

This statement shows that less than 33 per cent of the applicants for enlistment in the army are accepted, but all were not rejected for physical disability. Many were too young, or too short, or were married. Strict attention is being paid to the regulations about recruits, and as a result a high class of men are entering the service. Captain W. L. Reed was in the city today and accepted W. A. Cash, of Paducah, Ill., who recently lists in the army after several months as private first class. He decided that the army career was the one for him and will go to the coast artillery at Ft. Monroe, Va.

The applicant accepted by Sergeant Blake yesterday was physically well qualified, but failed to show up this morning to be sworn in. Cases like this arise frequently and are ascribed to the fact that the applicant was married and when he was asked to give references in his home town, concluded that the jig was up for him.

Captain Reed informed Sergeant Blake that he must go to St. Louis soon to have his picture taken and thumb marks registered at Jefferson barracks. Sergeant Blake and other men on detached service did not have this done when the rest of the army did. Photographs and thumb marks are used to identify soldiers on the field of battle, or when they disappear or desert.

Police Report.
June has been a quiet month with the police department, and few felonies have dotted the docket. During the month to noon the police had made 126 arrests, with breach of the peace warrants leading the race by a long way. The cops pulled 37 persons for fighting or raising a disturbance. The arrests were: Breach of peace, 37; breach of ordinance, 1; drunk, 13; malicious cutting, 1; housebreaking, 3; fugitive, 2; suspect, 1; inflicting, 3; crazy, 1; mooning, 1; concealed weapons, 3; obtaining money by false pretenses, 5; peep show, 5; immorality, 7; selling liquor without a license, 2; grand larceny, 1; using insulting language, 5; malicious shooting, 1; non-support, 1; false swearing, 1; drunk and disorderly, 1; converting money of another to own use, 2.

Fire Department.
June has been a quiet month with the fire department as there have been only 12 runs, with not over \$500 loss in any blaze. The biggest fire was June 1 when the stable at the Sherill home, Fountain avenue and Jefferson street, burned, but by good work of the department was checked before the handsome residence caught fire. The insurance on the buildings will far exceed the loss although it has not been figured out. June has always been a quiet month for the fire fighters, and this June was no exception.

Building Permits.
Building operations in Paducah last month involved \$3,350, according to the estimates or permits issued. They follow:

Ed Grief, frame building on Kentucky avenue between Fourteenth and Fifteenth streets, \$1,500.

Parker's Appearance on Scene May Precipitate Old Time Fight, But Bryan Men Are Full of Confidence

Platform Continues to Be Center of Interest and Prohibition Plank Will Be Urged—Gray's Managers.

Denver, June 30.—Judge Parker, the last presidential candidate, is expected tomorrow and he will take charge of the fight by the conservatives against the radical platform. The situation indicates that the prevailing harmony will be shattered and an old-fashioned Democratic scrap will result. Anti-Bryanites expect Parker to strengthen their cause. They hope to control the resolutions committee and dictate the platform. Bryan men profess not to be afraid and say Bryan will dominate.

Judge Marsch, of Wilmington, Del., and J. R. Beamish, of Philadelphia, Judge Gray's manager, stopped at Lincoln en route here. Bryan's friends argue this shows Gray's willingness to accept the vice presidency. Gray and Johnson headquarters will be opened tomorrow.

Prohibition Plank.
The fight over the anti-injunction plank in the Democratic platform is not the only struggle in which the committee on resolutions, and possibly the convention itself, may be involved.

It developed that the prohibition question is to be brought to the front and a desperate effort will be made to have a plank declaring in its favor placed in the platform. The prohibition movement will be headed by General James H. Weaver, of Iowa, who demanded of the recent Democratic convention of that state, that it declare in favor of prohibition. Weaver and his followers were not successful in their own state, but will bring the

Dr. Champion, Convicted Night Rider, Will Go to Prison, Pending an Appeal.

Dr. E. Champion, convicted of night riding, for participation in the raid on Birmingham, Marshall county, will go to the penitentiary and probably will be taken there tomorrow by the sheriff of Marshall county. Circuit Judge Reed this morning overruled his motion for a new trial and his attorneys prayed an appeal.

HANDLERS URGE GENERAL STRIKE OF RAILROAD MEN

Chicago, June 30.—A strike of all railroad men in the country is being urged by radical leaders of the handlers' union as a political expedient. The handlers' contract with the companies expires tonight. President Flannery, of the union, claims the railroads are playing politics to prevent giving the men concessions and wants all railroad men to strike as a notice to political parties that they want their demands respected. Railroads declare the strike will come sure, if the Democratic party refuses an anti-injunction plank in the platform.

JESSE AMES' INFANT SON DIES OF SUMMER TROUBLE.

The six-months-old infant son of Mr. and Mrs. Jesse Ames, of 525 South Second street, died Saturday night at 12 o'clock of summer complaint. The funeral was held Sunday afternoon and the burial was in Oak Grove cemetery.

NASTY BLAZE IS EXTINGUISHED IN I. C.'S COAL CHUTE

Fire Fighters Hoist Hose to Top of Bin 70 Feet High With Success.

Spontaneous Combustion is Suspected Source.

LITTLE DAMAGE IS THE RESULT

Fire was discovered in the new chute of the Illinois Central railroad this morning at 8:15 o'clock, but after a good fight the shop fire department downed the blaze. The fire was burning in the 300 tons of coal that are in the chute, and it is the theory that the fire started from spontaneous combustion. Two lines of hose were put on the fire, and it was drenched in a short time with little loss.

The fire was discovered by F. M. Barker, who has charge of the motor, which lifts up the coal to the bin, 70 feet high. When he reached the top he saw smoke, and immediately he began looking for the source. Jumping down on the coal he found it was hot, and the alarm was turned in. Fire Marshal George Hammond and Captains Will Thobald, Harry Judd and John Whitcomb, with their reels raced to the chute. The fire was in an inconvenient place, but the men dragged and lifted the hose up 70 feet long. One line of hose was 750 feet long, while the second was 500 feet long.

The chute was erected recently by the railroad at a cost of \$30,000 to replace the old chute which was destroyed by fire. It will hold 600 tons, but it was only half full when the fire alarm was given. All the amateur firemen worked like Turks and two lines of hose were lifted up to the fire in only a few minutes.

Bishop Potter is Fatally Ill.

Cooperstown, N. Y., June 30.—Bishop Henry C. Potter, of New York lies at the point of death here. He is suffering from liver and stomach complaints. The hot weather and his advanced age are against him. Relatives are at his bedside.

SCANDAL WILL BE PRECIPITATED BY WILSON MYSTERY

Philadelphia, June 30.—This city is threatened with a scandal in the highest society, the police assert, through the death of Dr. William Wilson, who was killed by poisoned alcohol by express. The arrest of a prominent young man and woman, said to be brother and sister, is imminent. The police assert that Wilson got a large income by performing operations. It is believed he was killed in revenge by relatives of a woman operated on. If the arrests are made the police intimate that the names of scores of prominent persons will be involved.

PADUCAH'S CANDIDATE

For grand outer guard at the state meeting of the Kentucky Knights of Pythias at Lexington next September the Paducah Knights of Pythias nominated Al E. Young last night, and he will be supported by the members. Last year Mr. Young was honored by receiving the nomination, but the Knights did not make the selection until late, and their candidate had little chance. This year Mr. Young was nominated early and the Paducah men believe he has an excellent opportunity to win. There will be about eight candidates in the field, but the Paducah knights will start a campaign for their candidate. When once elected grand outer guard of the state meeting he is in direct line for promotion to the highest office in the state in connection with the lodge.

J. N. Kehoe Candidate.
Mayville, Ky., June 30.—The Hon. James N. Kehoe, former Democratic congressman from this district, has formally announced himself a candidate for nomination by his party for that office. Mr. Kehoe is a strong Society of Equity man, and his chances are very good to land the nomination.

AT ECHO SPRINGS

Smithland Odd Fellows will gather at Echo Springs, near that town, on July 4 to celebrate Independence day, and to boom the local lodge. Besides the Odd Fellows and their families there will be many visitors from surrounding towns and Paducah. County Attorney Alben Barkley, of this city, will deliver an address on the object and work of the Odd Fellows. Other speakers of prominence will attend and the events scheduled for the day will make it a memorable occasion.

INFORMATION.

Information at the telephone exchange has become used to any calls from supplying a family with a cook to keeping tabs on the baseball games but yesterday a call out of the ordinary came in. In a magistrate's office a bashful couple, after displaying their horses, informed the magistrate they wanted to get married. Nobody was present, and the magistrate was in a quandary for witnesses. It was at the dinner hour, and few people were on the streets. Not to be outdone and lose the fee, the magistrate called up information and asked where he could get two witnesses to a wedding. Fortunately information kept cool, and as two "hello" girls were going off duty she sent them to the magistrate's office, and there the wedding was performed.

Troops to Border.
Washington, June 30.—The war department ordered troops sent to the Mexican border at Del Rio and other points to maintain order and prevent violation of the neutrality laws.

There is a possibility that the United States troops may be called on to arrest any revolutionists who may cross the border in an effort to escape the Mexican authorities. It cannot be learned that any actual orders to this effect have been given as none of the officials have anything to do with the matter is willing to discuss just what is held done except that every step possible will be taken to see that the neutrality laws shall be enforced.

Troops to Be Ready.
United States authorities are sincerely working to this end and assurances have been received from the attorney general of the United States and Governor Campbell, of Texas, that everything will be done to compel the strict enforcement of the law. Several military posts are in proximity to the border of Texas touching the state of Del Rio, where the Mexican revolutionists seem to be doing most of their work, and more troops are ready for any service required of them.

Old Agreement as Basis.
Senior Godoy, Mexican charge at Washington, today had another talk with Acting Secretary of State Adair, at which the situation was discussed. Mexico and the United States have an agreement whereby the troops of either country may cross the boundary of the other in pursuit of hostile Indians which may serve as a basis for any steps that might be taken in assisting Mexico to capture the revolutionists.

El Paso, Texas, June 30.—According to information from a reliable source officials' advices have been received in Juarez to the effect that 2,500 federal troops sent to Torreon, Coahuila, have taken the field in an effort to surround the parties believed

FIRST GUN MAY BE FIRED BY TAFT AT YOUNGSTOWN, OHIO

Congressman Kennedy Trying to Get Affairs For His District in September.

Friends Wait on Candidate in Vorys' Interest.

NO INFORMATION GIVEN OUT

Youngstown, O., June 30.—It is probable the Republican campaign will be opened here between September 1 and September 15. Secretary Taft promised Congressman Kennedy to try to have the national opening here. Kennedy is urging President Roosevelt to attend the opening.

Odorous Visit Taft.
Washington, June 30.—The most important conference held by Taft was that which he had with a delegation representing political organization of the Republican party in Ohio who came to Washington to urge the secretary to favorably consider Arthur Vorys in the selection of a national chairman.

At the conclusion of the conference although Taft did not indicate to the delegation what his intentions were, he authorized the members to telegraph Vorys requesting him to come to Washington and meet him next Wednesday.

Hiltchcock Won't Talk.
Frank H. Hiltchcock, Taft's Washington manager, arrived here from Chicago, and will be engaged for several days in the work of closing Taft's headquarters in this city. Hiltchcock declined to discuss for publication the national chairmanship in any way. He said he expected to have a conference with Taft in a day or two, but pending that interview he could say nothing.

Every effort was made to learn something definite respecting the choice of a national chairman, but Taft himself said that no announcement will be made until the conference with the sub-committee of the national committee at Hot Springs, July 8.

His Last Day.
Washington, June 30.—Secretary Taft spent his last day at the war department. He explained many details of Panama matters to Secretary Wright. His resignation is effective at midnight.

Contest for Rectorship.
London, June 30.—Prof. William Osler Regius, professor of medicine at Oxford university, has been selected as an independent candidate for the lord rectorship of Edinburgh university. Winston Spencer Churchill, president of the board of trade, and George Wyndham, former chief secretary for Ireland, are respectively the liberal and conservative candidates for the office.

FARMERS SMILING

The gentle rain yesterday afternoon and last night had a wonderful effect in the restoration of vegetable life, and today the farmers are wearing a smile that will not rub off. The truck gardens and farms in McCracken county were badly in need of rain, and had the rain not come there might have been a shortage. The rain was a gentle one, and reports from over the county show that all parts of the county were blessed. More rain was needed, but the farmers are happy nevertheless. In the city the shower was appreciated as the dust was laid for once, and made the atmosphere cool.

Keep the Kitchen Cool

Why swelter over a glowing range in a stuffy kitchen, when a new Perfection Wick Blue Flame Oil Cook-Stove will do the family cooking without raising the temperature enough to be noticeable?

By putting a "New Perfection" in and allowing the range fire to go out, you may make this summer's kitchen work not only bearable, but actually a pleasure. The

NEW PERFECTION Wick Blue Flame Oil Cook-Stove

produces an intense heat under the kettle or in the oven, but does not radiate heat in all directions as a coal range does—hence is used with comfort on the hottest summer day. Made in three sizes, and warranted. If not with your dealer, write our nearest agency.

The Rayo Lamp

comes as near lamp perfection as possible to get. Gives a clear, bright light that reaches the farthest corner of a good sized living-room. Well made throughout of nickel-plated brass; perfectly safe and very ornamental. Warranted in every particular. If not with your dealer, write our nearest agency.

STANDARD OIL COMPANY (Incorporated)

Kentucky Horses in South America

Lexington, Ky., June 30.—South America is to offer great inducements to Kentucky horsemen. This is borne out by the arrival here of Dr. Hoase, of the agricultural department of Guatemala, who will buy a carload of fine saddle and harness horses to ship to his country for breeding purposes. James B. Haggin, as already announced, will ship fifty thoroughbreds from Elmendorf farm here to Buenos Ayres, part of which will be sold and others to serve as nucleus for a breeding plant there. Other breeders may follow his example.

ELEVEN STARTERS

ENTERED IN BALLOON RACES AT CHICAGO SATURDAY.

Aeronautique Club Sponsor for the Sporting Event That Interests Whole Country.

Chicago, Ill., June 30.—Eleven starters are assured for the international ballooning race, to be held next Saturday, under the auspices of the Aeronautique club of Chicago and the Federation of American Aero clubs. This entry exceeds by two that of the championship event in St. Louis last October, the only big ballooning event ever held in America. The grounds will be paroled by Troop F of the First Cavalry.

The following are the entries: Chicago—C. A. Coey, of Chicago, owner; George Bumbach, St. Louis, pilot.

San Antonio—Dr. Frederick J. Fielding, president Aero club of Texas, owner.

United States—Entered by Aero club of St. Paul; Colonel Shirley, of Louisville, Ky., pilot, assisted by J. L. Gribble.

America—Entered by Minneapolis Aero club; Captain P. S. Hudson, pilot.

Illinois—Entered by Chicago Aeronautique club; J. L. Case, Chicago, pilot; Charles E. Gregory, assistant.

King Edward—Entered by Aero club of Canada; Lieutenant Preston, of the British army, pilot; Horace Wild, Chicago, assistant.

Columbia—Entered by Federation of American Aero clubs; Captain Martin Peterson, U. S. A., pilot; Charles Leichter, assistant.

Cincinnati—Owned by Norman G. Kenan, of Cincinnati; Leslie Haddock, pilot; George Hoakard, assistant.

Baldwin—Entered by Captain Baldwin, of Quincy, Ill.; piloted by the owner.

The record the balloons will be called upon to break or equal is that of the Pommeru, which covered 872 miles from St. Louis to Ashbury Park, N. J.

Many of the balloons entered in Saturday's race are larger and speedier than the winner of the last Gordon Bennett, and the Americans expect to beat the old record.

HAIR TELLS CHARACTER.

Color of Hair Said to Indicate a Person's Temperament.

Many people believe that blonde, or light hair denotes affection and dark hair constancy. A person with fair hair is not devoid of character; far from it. The disposition of the average bald-headed man is to show such solicitude for the welfare of others, that he neglects himself. A germ causes baldness. Prof. Sabouraud, of Paris, France, inoculated a rabbit with Dandruff germs, causing it to become totally bald in five weeks' time. To rid the scalp of these dangerous germs it is necessary to apply Newbro's Herpicide.

ANOTHER LIFE

CLAIMED BY TORRADO WAR IN WEST TENNESSEE.

Mr. Fielder Is Killed By Man He Charged With Being a Night Rider.

Clarksville, Tenn., June 30.—Mr. Fielder was shot and instantly killed at an election precinct in the Fourth south district of this county, by Wells Rhinehart. The killing was the outcome of the local tobacco trouble. Fielder, who is a non-association man, accused Rhinehart of

being a night rider, and responsible for certain lawlessness alleged to have been committed in this county. Rhinehart denied the charge, and a few words passed between them, when Fielder is said to have called Rhinehart a liar, at the same time started towards him with an open knife. Rhinehart quickly pulled his pistol and fired at Fielder five times, four shots taking effect, and one crazing his collar. Fielder fell and died with an open knife in his hand. Rhinehart surrendered and was brought to jail at Clarksville. Fielder was a man about 30 years old, and Rhinehart is 21, both prominent in this county.

Daily Thought.
Prayer is well, compliment is well,
but affection is the final and most
precious reward that any man can
win, whether by character or achieve-
ment.—Mark Twain.

General Obaldia, of Panama, may
not be the strongest man of his
period, but he carried Colon.

Scientists report that the sun
eclipsed ahead of the time they sched-
uled it. Fanny that so regular a
thing as the sun should act that way.

Calro citizens are sore because the
eclipse of the sun did not amount to
much as a spectacle. A Calro audi-
ence always was hard to please.

With the defeat of John Wesley
Galeas, the people of the United
States lose one of the leading con-
tributors to the Congressional Record.
It will add to the family pride of
the progeny of some public men to
be able to produce press clippings,
showing that aforesaid public men
have declined the vice-presidency,
even though that high honor was
never offered them.

Perhaps, Secretary Taft's chair
will be sandpapered and revarnished
in anticipation of his greater dignity
and his promotion to the chief exec-
utive office. Assuredly, the country
did not take it literally when it was
announced from Washington that
Gen. Luke Wright had succeeded to
Secretary of War Taft's seat.

THE FINAL TEST.
One the whole, the conserva-
tism of the Denver platform
promises to be such that the
campaign likely is to be fought
out largely on the personality of
Taft and Bryan.

This is the concluding paragraph
of Raymond's letter from Denver to
the Chicago Tribune. And the "per-
sonality" of Taft will be revealed in
his record in office, and that of
Bryan in bound volumes of his
speeches on "tariff for revenue only,"
"free silver," and "government
ownership of railroads." How well
these records and speeches comport
with the conservative wording of
their respective platforms will be the
final test of the fitness of candidates.

THE CARIBBEAN.
The Caribbean sea seems to be the
"red light" district of the western
hemisphere, and Uncle Sam has
never seen the day since Porto Rico
was taken that he has not had an
extra force of naval police along its
shores. Cuba to the north of it,
Panama, where the big ditch is split-
ting the isthmus; and early Colum-
bia, and independent Venezuela, all re-
quire constant attention, while the
little island republics scattered about
the neighborhood are everlastingly
doing something to jeopardize Ameri-
can and European interests. It is
reported that the United States has
more than 5,000 men within striking
distance of Venezuela at present.
How the administration views the
conduct of President Castro was
made manifest in the president's spe-
cial message on the subject; and the
president may be depended on to
avail himself of every opportunity to

make Venezuela feel the discomforts
and convenience of our ill will.

A SANE FOURTH.

Will it be a sane Fourth, full of
patriotism—and fire works, too—but
devoid of tetanus producing features?
We desire to call attention to the
fact that Paducah has a cannon
cracker ordinance, that makes it a
misdemeanor, as well as sell danger-
ous explosives, as to use them. The
police will arrest all dealers engag-
ing in the traffic. The life of the
children is precious, and while we
are usually ready to make any sort
of sacrifice for the country, we de-
cline to sacrifice the children just to
make a noise.

TAFT AND THE COLORED VOTER
Col. Henry Watterson, whose opti-
mistic spirit one day made him ad-
vise the Democratic national conven-
tion to open its arms to the colored
brother and welcome him into the
opportunity to show his political
strength and rebuke some fancied
slight at the hands of the Republi-
can party, is answered in an edi-
torial, which appeared in the Chicago
Tribune, quoting an expression from
Booker T. Washington. It says:

"In the last analysis the negro
vote will go to Mr. Taft because the
negroes will realize in the campaign
they have nothing to expect from the
Democratic party. With the Demo-
cratic convention made up in large
part of southern representatives of the
Tillman-Vardaman type, it will be
impossible for the negro to get any-
thing. If he is to get anything
he will have to look to the Republi-
can party and he will naturally vote
for the Republican candidate."

Booker T. Washington.

"The common sense of the view-
point here expressed by Mr. Wash-
ington is so obvious that comment
would be unjustifiable if the negroes
of Chicago had not recently been
treated to a good deal of rant against
Mr. Taft coupled with oratorical
threats that the negro vote would
bolt the Republican ticket rather
than go to him. As The Tribune re-
marked when these platform out-
breaks occurred, they were largely
the result of an egotism inflamed by
a little brief notoriety.

"There is a group of leaders
among the negroes of the violently
radical and irrationally idealistic
variety. These men may be borne
with because their intentions are
good if their social and political
wisdom is doubtful. But the political
bess among the negroes who is dis-
posed to trade upon prejudice for his
own profit to his people's hurt should
be suppressed.

"There is no alternative in the
mind of any intelligent negro to vot-
ing the Republican ticket. Even if
the attacks upon Mr. Taft were not
unfounded and unjust, even if it
could honestly be charged against
him that he is inimical to the true
interests and political and social
rights of the negro, which he is not,
the negro would only injure his own
cause by going over to the Demo-
cracy of Tillman, Bailey, and Vard-
man."

LATE RIVER NEWS
The Evansville packet, John S.
Hopkins, broke down just above Gol-
conda this morning while on her way
to Paducah. She will come on to
this place and will be repaired before
going back. It will probably be sev-
eral days before she re-enters the
Evansville and Paducah trade.

A letter has been received by the
wharfboat company stating that the
City of Savannah will start in the St.
Louis and Tennessee river packet
trade about July 13. This goes to
show that the Tennessee river trade
is the best of any of the river trade.
There are now four packet boats
going up the Tennessee as far as
Riverton and Waterloo, Ala., which
are about one-half mile apart. The
City of Saltillo, the Chattanooga,
the Kentucky, the Clyde and the City
of Savannah will make five. Passengers
and freight shippers can get a boat
for the Tennessee river on Tuesday,
Wednesday, Friday and Saturday of
each week, which makes it almost as
convenient as travelling by rail.

The John Bertram arrived from
Helena, Ark., this morning at 11:30
o'clock to go on the marine ways for
repairs. The Bertram is a transfer
boat. The DeKoven went to Helena
to take the Bertram's place while she
is here being repaired.

THE VANISHING FLEETS

By ROY NORTON

ILLUSTRATED BY A. WEIL

(Continued from last issue.)

The great plates were locked in,
and the group repaired to one of the
offices, where for hours the inventor
elaborated his scheme of control, the
mechanical means of which were to be
worked out and drawings made by the
engineers. And as they talked over
their plans, there spread from mouth
to mouth throughout the strange col-
ony the story of the marvelous con-
ception, until even the most prosaic
workman found himself dreaming and
speculating over his task. Before dusk
had crowded the light from the skies,
the Columbia, under a full head of
steam, picked her way out to meet the
ocean swells, and headed for Miami,
where she was to send a message to
Washington, calling for strangely as-
sorted supplies and notifying the au-
thorities that the dry dock would not
be needed.

There where the heart of the Ameri-
can government beat was nothing but
anxiety and suspense. Each succeed-
ing day's events had made it more
certain that Japan would force the is-
sue to war, and, like an athlete, was
stripping and training for the fight.
The men who had taken upon them-
selves the tremendous responsibility
of intrusting the nation's defense to a
single discovery, and were backing it
with funds for which they must ne-
gotiate some day, saw the days slipping
by, and grimly realized that they were
irrevocably bound to the success or
failure on the key. It was too late
now to attempt other projects, and
glory or defeat hung suspended on the
issue.

No reports had been received, and
no news had come from that determi-
nistic little army that had sailed away
to the south. Hence it was with some-
thing of a shock that the first word
received was to the effect that the dry
dock could not be utilized. It seemed
like the first dread handwriting em-
blazoned on the wall, foretelling fail-
ure, disaster, disgrace and war, and
the president as he read it quoted
with inexpressible sadness: "Mene,
Mene, Tekel."

Then followed the requisition for
supplies, and once again before any
detailed report had been received
came another demand. The island in
the solitude seemed an insatiable
monster devouring national funds and
giving back nothing in return. More
days went by, bringing nothing save
distressing stories from the orient,
where a clash had taken place at the
gulf between Japanese sailors and
American marines. This was of such
serious nature that apologies were
tendered the Japanese embassy, and
then from the entire country burst a
storm of protest and reiterated citi-
zens of the administration, which was
continuously accused of showing
the white feather. From the western
coast came appeal on appeal, the
whole Pacific seaboard calling atten-
tion to its unprotected state and the
inimicence of its danger.

Distressed and irate at the dearth
of information, the secretary of the
navy was on the point of sending a
message to Brooklyn in return, when
he received from Miami the terse
message that in two nights more the
admiral would report in person. That
he bore nothing but a tale of disap-
pointment was surmised from the
closing words of the admiral, who re-
quested that all those who had been
party to the project should assemble
secretly as before at the White House
after midnight.

Haggard and worn, they came to-
gether, read the brief dispatch and
waited. The president, his melan-
choly face set and grave, looked at
them from cavernous eyes; but could
offer no consolation. There was noth-
ing to do but wait—sit and wait—for
the messenger of ill omen who was to
sound the knell of hope and tell what
letters had been combined to spell the
word "failure." In hushed voices they
discussed the situation, and tried to
evolve some project for its alleviation.

And then without preliminary an-
nouncement the door swung open un-
der the hand of the president's private
secretary, and there stood framed in
the huge form of the admiral, his hand
at salute, his eyes shining in triumph,
and back of him stood Norma, her fa-
ther and Jenkins. Brocton advanced
to the president's desk, and faced him
and the secretary of the navy.

"I have come to deliver my report
in person, and with me are those who
have given this nation the greatest
engine of war that science has ever
known."

"The room was electrified; but the
president sprang to his feet and threw
up a restraining hand commanding si-
lence."

"Well," he queried, inviting further
words; but Brocton's place had been
taken by the short, stout figure of a
diminutive old man, who put a tea-
bling hand out to his friend and in a
voice of affection, barked out exultant,
acclaimed:

"Paul, Paul, we've made good!"
The other's hand came out to meet
his, and the only sound heard was the
president's fervent, "Thank God! Thank God!"

The gates of repression and emotion
were These men had been

tried to the breaking point, and now,
when in one moment their skies had
cleared, they gave way. They hugged
each other, repeatedly shook hands,
and in the eyes of some there were un-
restrained tears. They crowded round
the little group from the key and
admired each other to silence.
"Gentlemen," said the inventor, "we
have rendered warships useless. We
need no armor! Increased speed on the
water's edge of no value to us. We
have created a machine that flies, not
a thing of gas, of planes, or a kite. We
cannot explain here as well as if you
were to go with us and see it, and
what use we have made of your
money."

The secretary of the navy looked
disappointed. His mind was too in-
tensely practical to jump to happy con-
clusions. "Can a flying machine whip
a battle ship?" he asked, and would
have continued; but the admiral
brought his fist down on the desk with
a mighty bang.

"This one alone might do it! The
others we'll have ready before they
are called upon to whip the world." He
stopped as if abashed by his own
enthusiasm and lack of etiquette,
looked at the president and the sec-
retary apologetically, and then in a
less tempestuous voice went on: "All
we ask is that you come with us—so
no one may see us, of course—and
then you'll have no cause for com-
plaint."

BATTLE LOST
Defeated Candidate Says Platform
and Legislature Must Be Con-
sidered.

Memphis, Tenn., June 30.—A spe-
cial to the Commercial-Appeal from
Nashville says:
Senator Carmack made the follow-
ing statement:

"Neither Mr. Armistead or myself
have instituted or suggested any con-
test anywhere. I have heard just as
others have, of protests against cor-
ruption and fraudulent practices in
various counties, but I have never
contemplated making a fight to pro-
mote my own nomination or to de-
feat the nomination of Governor Pat-
terson against a majority of the popu-
lar vote. There is no way provided
by which the corrupt and fraudulent
vote can be sifted out of the mass,
and I shall not attempt it."

"But my candidacy is but one fea-
ture of this contest. The Democratic
platform is yet to be made. Demo-
cratic legislators are yet to be nomi-
nated, instructed and elected. The
fight for the utter abolition of the
whisky traffic and for other vital re-
forms must go on without a mo-
ment's pause. The enemy has won a
Pyrrhic victory. This battle has
been lost, but the war has just
begun."

"They have immensely strained
and weakened their resources to gain
it. We are as strong as ever and can
put up as good a fight every Saturday
as we did last Saturday."

Notice to Contractors.
Bids will be received by the Board
of Public Works at their office in the
city hall on Tuesday, July 7, 1908,
at 1 o'clock, for the construction of
Tenth street from Broadway to Ken-
tucky avenue, with either bitulithic,
vitified brick or asphalt material, as
may be determined by the general
council; and also for concrete sidewalks
on Tenth street from Broad-
way to Kentucky avenue, all as per
plans and specifications in the city
engineer's office, under the ordinance
authorizing same.

LOUISVILLE SELETED.
American Library Association Will
Hold Its Sessions There in 1909.
Minneapolis, Minn., June 30.—The
American Library association, at its
final meeting at Lake Minnetonka se-
lected Louisville, Ky., as the next
meeting place. Following are the
new officers:

President, C. H. Gould, McGill col-
lege, Montreal; vice-president, N. D.
C. Hodges, Cincinnati; secretary, J.
I. Wyer, Albany, N. Y.; trustees, W.
W. Appleton, New York; T. D. Jones,
St. Louis; W. T. Porter, Cincinnati.

Notice to Saloon Keepers.
It has been the custom to permit
saloon keepers desiring to renew
their semi-annual license to continue
the operation of their saloons pend-
ing the action of the general coun-
cil on the applications for renewal,
but this does not relieve all appli-
cants for renewals of the duty to de-
posit the license fee with the city
treasurer by the first of July; and
therefore, all saloon keepers expect-
ing to renew their license are notifi-
ed that the license fee must be de-
posited with the treasurer by July 1.

FIRE CHIEF WOOD BUSY AGAIN WITH HIS PET MEASURE

Not to be outdone, Fire Chief
James Wood is busy during his spare
hours preparing the ordinance creat-
ing the office of building inspector.
This is the second time Chief Wood
has written the ordinance, which re-
quires 80 typewritten pages, and was
dubbed in the council "The White
Elephant." Its length is just the
reason why it is necessary for Chief
Wood to buckle down to work and
prepare the ordinance again, but with
his usual pluck he has started to
work to complete it.

The ordinance was introduced in
the council last year, but owing to its
length no councilman ever dared to
read it, and whenever it was picked
up there was a motion to adjourn. So
that the ordinance might be under-
stood each councilman and alderman
swapped the ordinance about to read
it during spare hours, but somebody
stuck it in a pigeon hole and it never
came forth again. Seeing that it was
hopeless to find the ordinance Chief
Wood has begun work copying the
original manuscript.

The ordinance provides for many
good features, and members of the
general council admit that such an
ordinance is needed in Paducah. The
office of building inspector is created
but his salary chiefly comes from
fees, and the office will nearly be self-
sustaining. Owing to the length of
the ordinance the general council will
not get it until about two weeks.

Raymond's Deceit
Chicago, June 30.—"Raymond" in
the Tribune says:

"William Jennings Bryan is cer-
tain to be nominated for the presi-
dency by the Democratic national
convention in Denver. The member-
ship of the convention will therefore
be 1,002. Applying the two-thirds
rule, the successful candidate will
have to have 668 votes.

"According to figures of the Bryan
managers, the Nebraska leader now
has 564 votes of solid delegations
actually instructed for him. Besides
that they claim instructions from 11
scattering delegations in Massachu-
setts, North Carolina, Ohio and Penn-
sylvania.

"There are 122 uninstructed dele-
gates supposed to be for Bryan. This
gives Bryan, according to the figures
of his managers, 787 votes. Then
there should be added 18 more dele-
gates from Montana and North Caro-
lina who were still to be elected
when the figures were made up this
morning, but who are confidently
claimed for Bryan.

"This makes a total of 815 votes
for the Nebraska leader, which are
said to be absolutely certain. But
there are 46 scattering votes in
Massachusetts, Rhode Island, Ohio,
Vermont, Florida, Alabama and Mary-
land which are believed to be for
Bryan as a matter of personal prefer-
ence, although they are not in-
structed.

"This makes Bryan a total of 855
votes, or nearly 200 more than
enough to nominate him.

"The question of a vice-presiden-
tial candidate is still in the air, and
may remain so for some days. Bryan,
as I have said before, unquestionably
favors Judge George Gray, of Indol-
ware, but he would be satisfied with
any other eastern man, including
Governor Chandler, of New York, former Governor Douglas,
of Massachusetts, or Charles P.
Towne, of New York, and falling
them, Tom L. Johnson, of Ohio, or
John W. Kern, of Indiana.

"Bryan will be the eighth candi-
date of his party to be nominated for
president on the first ballot. The list
of conventions in which the nomina-
tion was made on the first ballot,
with the years they were held in,
the nominee, reads as follows:
Baltimore.....1822 Jackson.
Chicago.....1861 McClelland.
Baltimore.....1872 Greeley.
St. Louis.....1888 Cleveland.
Chicago.....1892 Cleveland.
Kansas City.....1900 Bryan.
St. Louis.....1901 Parker.

Real Keynote.
Lincoln, Neb., June 30.—The
Traveling Men's Bryan club will give
a reception to the Nebraska Friday
night. Bryan will deliver his real
keynote speech of the campaign. His
remarks will be a tip to the resolu-
tions committee of the Denver con-
vention. It is believed Bryan will be
notified of his nomination here,
Partisan antipathy prevented it in

FIGHT ON CANNON IS PREMEDITATED

Iowa Expected to Lead Repub-
lican Rebels.

Barton, of Ohio, Houtell, of Illinois,
and Hepburn May Be Can-
didates.

SPEAKERSHIP THE REWARD.

Washington, June 30.—An orga-
nized effort is said to have been dis-
covered to defeat "Uncle Joe" Cannon
for speaker of the Sixty-first con-
gress if the Republicans carry the
house. He has been tagged as an
undesirable reactionary and must be
eliminated, so the report goes.

Iowa is expected to lead the re-
volt against the Illinois congressman.
In the first place, Iowa has wanted
the speakership honors for years as
a tribute to her old veteran, Colonel
"Peter" Hepburn. In the second place
the state is not in sympathy with
some of Cannon's policies.

The action of Republicans in Gut-
rie county, Iowa, adopting resolu-
tions, calling upon Representative
Walter I. Smith, one of the most in-
fluential men in the house, and one
who is generally regarded as needing
no instructions, to vote against
Joseph G. Cannon for speaker, is
said to be the first step in the cam-
paign. Other Iowa organizations
will follow suit, and it is predicted
that many of the congressmen from
that state will have the organizations
upon which they depend for election,
demanding the defeat of Cannon and
the selection of Hepburn to succeed
him.

Should Iowa lead off in this mat-
ter, most of the northwestern states
will follow her, it is calculated. Wis-
consin is said to be up in arms
against the drastic rules of the
speaker that have squeezed the La
Follette disciples so hard that they
have been able to do nothing more
effective than to make a futile pro-
test. Not one solitary crumb of re-
form have they been able to bring
forth to the hungry reformers in the
badger state, and they say it is all
because "Uncle Joe" will not allow
them to do anything to save the na-
tion. Some of them have spoken
their minds on the floor of the house,
while others contended themselves
with breaking over party lines when
the speaker cracked the whip to carry
out some of his plans.

Minnesota, Michigan, Nebraska,
California and Kansas are counted on
to vote for a change in affairs in the
house, while scattering representa-
tives, disgruntled by the way things
have been run in the house during
the last three congresses are classed
with those who will vote against the
Illinois member.

Colonel Hepburn is not the only
man in the house who would like to
succeed Cannon. There is Representa-
tive Barton, of Ohio, regarded as
the most effective orator, deepest
thinker and profound student on the
floor. Representative Houtell, of Illi-
nois, is also said to be good timber.

Should the Democrats by any
chance regain control of the house, it
is generally regarded as certain that
Representative Champ Clark, of Mis-
souri, will be chosen speaker. In the
last five years, Clark has grown im-
mensely in the house, and besides
being level-headed, is a first-class
orator.

Eczema is Now Curable.

A St. Louis chemist, after many
years of careful experimenting and
investigation, has discovered a simple
remedy that has cured hundreds of
cases of eczema that had been pro-
nounced incurable. This chemist be-
lieved that eczema and all itching
skin diseases were of local origin
and were caused by germs which at-
tacked and fed on the skin. He be-
gan to search for a remedy that
would destroy these germs, and
found that by combining the active
principles of certain well known vege-
table drugs, and applying them locally,
the itching and burning, and if used per-
sistently would drive all germs and
their poisons to the surface of the
skin and destroy them, leaving a
nice, clear, healthy skin. He gave
this remarkable remedy the sugges-
tive name of Zeno, and since its in-
roduction to the public Zeno has
proved a very popular remedy, and
is today recognized the most success-
ful and meritorious remedy ever pro-
duced for the relief and cure of ec-
zema and all diseases of the skin and
scalp.

Mr. W. J. Gilbert, the druggist,
endorses and recommends Zeno and
says that he believes Zeno to be an
honest medicine and will do all that
is claimed for it.

THE TRUTH ABOUT KIDNEY TROUBLE.

Kidney trouble is inflammation of
the kidneys due to colds, exposure,
worry, excesses in eating and drink-
ing, etc.

Backache is seldom an evidence of
inflammation of the kidneys.

Spindliness or emaciation that can be
seen with the naked eye, are not
usually evidences of a very serious
stage of inflammation. Both often
show in people otherwise well and
commonly disappear with the excit-
ing cause.

The patient should diet, avoid
colds and live carefully and the ordi-
nary case of kidney trouble will with
care and treatment usually disappear
the first few weeks.

If it persists, or there should be
continued evidence of disordered kid-
neys, it should demand the attention
of the patient in view of the position
taken by medical writers that about
the sixth month the inflamed condi-
tion becomes chronic and incurable.

It will be seen through all the
above that the real trouble is inflam-
mation of the kidneys. While there
are many kidney stimulants they
have been abandoned by physicians
for they now know that none of them
carry repair to inflamed kidneys.

The late John J. Fulton was the
first man in the world to discover an
emollient that reaches the kidneys.

It reverses the old treatment. In-
stead of irritating the inflamed kid-
neys with stimulants, the effect is the
gradual reduction of the inflamma-
tion and for the first time kidney
disease both in the first and second
stages, is amenable to treatment.

Fulton's Renal Compound abating
the inflammation in about 87 per
cent of all cases.

TOBACCO NEWS

Louisville Market.

Louisville, Ky., June 30.—Business
was at a minimum in the local leaf
market this week, and about the only
feature was the smallness of the move-
ment. The aggregate sales were
hardly more than a third of a day's
business during the height of the sea-
son early in the year. Receipts were
also very light and consisted largely
of Equity tobacco was limited, only 50
hogsheads of old burley, belonging to
the society, being protracted hot and
dry weather is preventing the comple-
tion of planting in the burley dis-
trict and retarding growth.

In the burley division of the mar-
ket the limited offerings of new net
with a very strong demand and values
showed an upward tendency, closing
the week fully 1/2 higher for medium
and good leaf, and a bid or two high-
er for all other grades. Old burley
was offered very sparingly and values
showed no change of consequence.

New dark was offered to the extent
of 151 hogsheads. It was of inferior
quality and in poor condition. Good
order manufacturing leaf continued
in strong demand and going prices
were at outside quotations. Rehand-
ling grades were irregular. Short
common leaf ruled firm. Very few
hogsheads available for export were
stripped. The demand for hogshead
not perceptibly, but prices showed
no quotable recession.

Sales for the week were the lowest
in four years, and probably estab-
lished a record for smallness. They
totaled only 577 hogsheads, against
2,079 last year, 3,953 in 1906 and
2,735 in 1905. The 577 hogsheads
were comprised of 144 new burley,
92 old, 322 new dark and 19 old, of
which 392 were sold by auction and
275 privately. From January 1 to
date sales aggregated 77,622 hogs-
heads, against 76,738 last year, 95,
914 in 1906 and \$1,960 in 1905. Re-
ceipts this week were 1,081 hogs-
heads against 2,523 last year and 2,
079 in 1906, and from January 1 to
date they were 63,289 hogsheads,
against 62,186 last year and 68,426
in 1906.

One of the largest importers in
Norway of American leaf tobacco has
brought to the notice of Consul Felix
S. Johnson, of Bergen, reasons why
Norwegian tobacco manufacturers
prefer to purchase their tobacco from
Germany rather than from the United
States. The importer claims that dur-
ing the past few years the American
leaf tobacco was dried by means of
steam instead of being hung up and
allowed to be dried by air; that many
cases had been picked while wet,
causing fermentation, and shipped to
Europe; the rejected cases were then
shipped to other European ports to
be sold for what price the goods
would bring. Most of the Norwegian
manufacturers purchased the Ameri-
can leaf tobacco through Bremen com-
mission houses whose salesmen visit
these parts once or twice a year; they
have with them samples and allow a
credit of some months; if the goods
arrive in a damaged condition, or not
as ordered, they are refused and ship-
ped back to Germany.

Association Sales.

Sales by the representatives of the
Planters' Protective association for
the week ending June 20 reached a
total of 2,127 hogsheads at all the
salesrooms, with a grand total of 21,
514 for the season. The sales of
1907 crop are going off more rapidly
than any other has ever done, and it
is probable that the association is
5,000 hogsheads beyond the sales-
mark of the same time last year.

Sales of last week showed a decid-
ed improvement over those of the
previous week, the gain being 628
hogsheads.

Sales during the week were decided-
ly heavier at the larger tobacco cen-
ters. Six hundred and twenty-four
hogsheads were sold at Clarksville,
and 143 at Springfield. The sales at
Guthrie were 142 hogsheads, which
was five less than those at Hopkins-
ville, Paducah, as usual, was well
up in the van with sales, the buyers
at that place taking 473 hogsheads.
Murray made a good showing dur-
ing a week not up to the mark by dispo-
sing of 152 hogsheads, leading both
Guthrie and Hopkinsville. The
French buyers have been among the
most active in western Kentucky dur-
ing the present season. O'Brien &
Co., of Louisville, who are buying for
France this year have been busy at
Paducah, Murray and Mayfield ever
since the season opened.

The story of Marseilles' consul,
therefore, has caused no apprehen-
sion among association officials. To
overcome any effect it might have
had, comes the report from Hopkins-
ville of the sale by Mr. R. C. West, of
that place, of two hogsheads of tobacco
to Liverpool manufacturers. "This
tobacco was treated in a way which
Mr. West is confident will overcome
the scruples of the British trade
against tobacco which has been prized
The only objection which will have
the slightest effect on Mr. West's pro-
cess is a small increase in the cost.
This it is thought, will not materially
affect the matter.

The insurance companies are feel-
ing good over a decision handed down
by Judge Sandgate at Russellville a
few days ago that they are not re-
sponsible for the tobacco losses at
the hands of the "night riders." This
is exactly the reverse of the decision
in Princeton by Judge Gordon that
they are liable for such damage, so
the matter will probably have to be
finally settled by the court of appeals.

Clarksville Tobacco.

Clarksville, Tenn., June 30.—The
receipts in the open tobacco market
last week were 99 hogsheads; sales,
270 hogsheads; market unchanged.

All the foreign demands continue
in the market, and we have the usual
domestic orders.

Receipts continue to fall off as
prizing houses slash their work.

Shipments are going out freely, and
stocks will soon show diminution.

The tobacco flies are now busy lay-
ing eggs; the worms from which pro-
duce the flies, which cause the Aug-
ust ghit of worms. If the worms are
picked off clean now, it will save
much labor in August.

The salesmen of the Planters' as-
sociation sold here last week nearly
400 hogsheads at satisfactory prices.

The board of graders were here last
week regarding the samples which
failed to come up to the full classi-
fications of the types.

The Bremen market seems open,
with sales of 1,000 to 1,200 hogs-
heads at good prices. All of the ship-
ments by way of New Orleans. We
quote:

100,000 Mark Passed.
Not another mile stone in yesterday's ballot but another hundred thousand mark passed by the contest ends in the Sun great popularity contest, with Miss Ella Hill still in the lead. Other contestants have changed places, however, and the interest that these changes have created among friends and supporters of the candidates, as well as the candidates themselves, amounts almost to a frenzy. Nothing that has happened in Paducah for some time seems to have aroused the interest and energies of the people as the Sun contest and the sharp, pleasant conflict between candidates and their friends wages greater as the end of the contest draws nigh.

Who Voted Yesterday.
Another big vote was cast yesterday, Miss Mern Nichols, leading with a ballot of 64,021 votes, Miss Ella Hill following with 41,056 votes and Miss Vern Dodson next with 31,400 votes. Others casting large numbers of votes were Miss Lura Street with 11,500, J. H. Dugger with 12,025, and Joe Desberger with 12,012 votes. Several ballots of from three to five thousand votes were cast and placed those candidates that much nearer the top. Miss Ella Hill still leads, Joe Desberger is second, Miss Mern Nichols is third, A. W. Stewman, fourth, and Charles Denker fifth.

Help Your Candidate Win.
Tomorrow is the 1st of July, leaving only four more days in which to win. During the early part of the contest the work, enthusiasm, and interest seemed to be confined more especially to the candidates themselves and it was up to them to convince their friends they were in to win. As time wore on, however, those candidates who were hustling and among the "live" ones gathered about them friends and supporters. And now this last week of the contest interest has spread so that the friends and supporters are as much interested in the contestants themselves. Now is their opportunity to place their favorite candidate among the winners. You know what your favorite has been and is doing, what the prospects of success and to what extent your support will help carry them to the coveted goal. Four days in which to show your clout, in which to lend your shoulder to the wheel, in which to fulfill the promise you made the early part of the contest that if your candidate made a good showing you would help at the last. Get busy, interested, enthusiastic and place your candidate among the winners.

RIVER NEWS

River stage at 7 o'clock this morning, 19.2, a fall of .2 since yesterday morning. During the month of June the highest stage of the river was 24.3, and the lowest stage was 19.2, the greatest fall in 24 hours was .5 and the largest rise was .1. The river was falling all but 2 days. The amount of rainfall during the month was 3.40 inches. Rainfall last night .30 inches. June was a month of sunshine, there were 26 clear days and 4 cloudy days.

The steamer Dick Fowler cleared for Cairo on time this morning with a big trip of freight and passengers. She had 1,000 sacks of wheat for Metropolis when she pulled out this morning.

The Joe Fowler will be the Evansville packet tomorrow morning.

The Peters Lee arrived from Cincinnati last night at 1 o'clock and got away at 3 o'clock for Memphis. She had a good trip of passengers but a light trip of freight.

The Clyde arrived from Waterloo, Ala., yesterday afternoon at 5 o'clock with a good trip of freight. She went to Joppy to unload and returned this morning and is taking on freight, preparatory to leaving for the Tennessee tomorrow evening at 6 o'clock.

The City of Saltillo will be in from St. Louis this afternoon about 6 o'clock on her way to Waterloo, Ala. The Royal was in at 10 o'clock this morning from Golconda and returned at 2 o'clock this afternoon with a good trip each way.

The George Bowling made her two regular trips from Metropolis today doing a big business on each trip. The Chattanooga is due tomorrow afternoon from Riverton, Ala., and all way landings. She will return Friday afternoon at 6 o'clock.

The Egan cracked a shaft on her way to Caseyville Sunday and had to come back to be repaired. She will be laid up several days.

The Harth got away for Caseyville yesterday after a tow of coal for the West Kentucky Coal company.

The Beaver passed up the Ohio this morning from the lower Mississippi with two barges of lumber for Cincinnati.

The Outway besides doing passenger business is towing rafts of logs down the Ohio river and out of Clark's river to Metropolis. Mr. Roman Goslee, the popular candidate, as well as the candidates themselves, amounts almost to a frenzy. Nothing that has happened in Paducah for some time seems to have aroused the interest and energies of the people as the Sun contest and the sharp, pleasant conflict between candidates and their friends wages greater as the end of the contest draws nigh.

Blandford; for painting, to Miss G. Cruise; for drawing, to Misses W. Clark, E. Castlen, C. Winstead; for music, to Miss M. Ray; for fancy work, to Miss M. M. Hite.

Alumni Meet.
The day preceding the commencement Mt. St. Joseph's alumni held their annual reunion. The numbers on the splendid feast-list were filled off by Miss Margaret Lee Miller, of this year's class, as toastmistress. The responses were as follows: Kentucky's Centenary—Miss M. Scherm; Badin, the Apostle of Kentucky—Miss M. Thomas; Flaget, the Patriarch of the West—Miss M. Elder; David and Nyricks—Mrs. Ora Pike Luckett; The Church in Daviess County—Miss J. Wimsatt; Kentucky Institutions—Rev. L. Clements.

At 1 p. m. the alumni gave an entertainment in the academy auditorium, composed of classical music, essays and enjoyable recitations. The art and fancy work exhibit was a fine one. About seventy-five paintings and drawings attested that Mt. St. Joseph's students have labored efficiently during the past ten months.

This year's attendance has been a remarkable one, and classic Maude Mount is now one of the leading literary institutions in southwestern Kentucky. The first session of the next scholastic year will open on the second day of September and the citizens of our town, who wish their daughters to take a thorough, classical literary course would do well to patronize beautiful Mt. St. Joseph's.

MURRAY WINS

DEFEATS CRACK TEAM FROM PARIS, TENN., 10 TO 2.

Indians and Powderly Team Will Cross Bats at League Park on Fourth of July.

The crack Murray baseball team defeated the nine from Paris, Tenn., yesterday afternoon at Murray by a score of 10 to 2. Williams and Brable, of the Indians, helped the Murray team out of a hole, and each played a star game besides getting a nice hit. Cutchers for Murray, allowed only one hit, but Porter gave six bingles. Four hits were against Sweeney's record. The feature of the game was the work of Downs, Burman, Brable, Williams and Davis, for Murray. The second game was played this afternoon.

Fourth of July Game.
Fourth of July the Indians and the crack Powderly team will play at Wallace park, and one of the hottest games of the season is expected as the Powderly team put the only blur in the Indians' record this season when it won three weeks ago by a score of 3 to 0. Davis will pitch, and will try and hold the hard hitting team to a shutout in retaliation for the dose of whitewash that the Indians had to swallow. Guyman will pitch Sunday and chief John Hollan believes his Braves will win both games. Claude Baker an old Paducah boy, is manager of the Powderly team.

PREPARING FOR TRIP TO POLE

The "Roosevelt" Will Leave New York July 1.

On Second Voyage to Greenland Will Start Out on Sledge Journey Over Ice September 1.

THE VESSEL IS IN GOOD TRIM

New York, June 30.—The work of loading and preparing the Arctic ship Roosevelt for her forthcoming trip to the north has gone forward so rapidly the crew was enabled to take a rest today. Capt. Robert A. Bartlett, who will be Commander Peary's skipper on the long and cold passage to Greenland, kept his men working night and day, and practically all the work that had to be done while the Roosevelt was in port has been accomplished.

The Roosevelt will not look as attractive when she clears from New York on July 1 as she did when Commander Peary took her on her first expedition. She was freshly painted then and her masts and boom were clean and varnished. She is a staunch vessel now than she was two years ago, and will be of greater service to the explorer, but her shafts by hull and smoke-begrimed house give her the appearance of a tramp steamer that has circled the globe on a year's journey.

Only the funnel and the interior of the engine will take on a coat of paint. These "injuries," as Captain Bartlett explained, were necessary.

Capt. Bartlett Talks.

"Commander Peary is looking out for the details of durability," said the skipper, and does not intend to spend money on frills. We are already loaded and have bricked away about 15,000 pounds of provisions. We will be ready to start on July 1, the date set by Commander Peary for his departure. We have gone along as well that we can afford to lay on work on Sunday. The Roosevelt is in great trim and will fill all the needs of the expedition. We will get to Greenland the first week in September and Commander Peary will start out on his sledge journey over his ice in February."

The surgeon who will accompany Commander Peary is Dr. Goodsell, of New Kensington, Pa. He was aboard the Roosevelt yesterday attending to the arrangement of his supply of medicines for the journey. Commander Peary will not board the Roosevelt at New Foundland, as was expected. He is now in Maine, but will arrive here on Monday.

DAY OF GRACE

EXTENDED BY CITY TREASURER DORIAN FOR TAXES.

Penalty Will Be Added Thursday July 2—Busy Scene at City Hall Today.

To give the late taxpayer every advantage City Treasurer John J. Dorian will not add the penalty until Thursday on the citizen who has failed to pay his taxes. Today there has been a constant jam at the treasurer's office, and many thousands of dollars were taken in. Last night Treasurer Dorian and Auditor Kirk and the office force were busy until 11:30 o'clock taking in money. Tonight there promises to be a bigger rush, but the majority of the taxpayers have learned that it is better to pay taxes early in the month and not wait until the last minute. The courtesy of the city officials in not adding the ten per cent penalty until July 2 will be appreciated by many of the taxpayers who were unable to appear today.

FIREMEN ENJOY FUN WHILE FIGHTING FLAMES.

While freight train No. 51 was pulling out of the south yards of the Illinois Central last night at 10 o'clock the train crew saw that a box car was on fire. Immediately the car was jerked out, and a switch engine started on the run for Sixteenth and Tennessee streets, when the No. 1 fire company met the car. Two streams of water were turned on the and save money simultaneously.
